

Hojjat Kamyabi

Home : Rahnamaei 8th Street, Ahmadabad, Unit 5, 3rd Floor, No 30, 9185637414, Mashhad, Iran

Email: hojjat.kamyabi.ir@gmail.com **Phone:** (+98) 9159870248

Date of birth: 1 Dec 1998 **Nationality:** Iranian

EDUCATION AND TRAINING

[Sep 2018 – Feb 2023]

Bachelor's in Computer Engineering

Islamic Azad University

City: Mashhad | **Country:** Iran | **Field(s) of study:** Artificial Intelligence | **Final grade:** 2

[Jun 2017 – Sep 2018]

Preparing for University Entrance Exam

[Sep 2016 – Jun 2017]

Pre-University

Beheshti School

City: Torbatejam | **Country:** Iran |

[Sep 2013 – Jun 2016]

Diploma

Shahid Beheshti High School

City: Torbatejam | **Country:** Iran |

PROJECTS

[Jun 2022 – Sep 2022]

Analysis of People's Trust in Social Networks.

The project analyzes trust among users in the "Epinions" consumer reviews website. "Epinions" is a platform where users can write reviews and feedback for various products. To address the issue of potential misuse by certain users, a trust system was implemented. The project involves structural analysis and interpretation of structural balance features, culminating in the presentation of a sample of opinion acceptance. The proposed method revolves around working with a signed network, thus exploring structural balance features. The evaluation of results involves examining how adopting a specific behavior appears in a reliable network.

RESEARCH INTEREST

Human-Computer Interaction

Machine Learning-Driven Health Monitoring Systems

Personalized Content Recommendation Systems

TEACHING ASSISTANT

[Nov 2022]

Advanced Programming in Python

I taught second-year students programming topics, including Data Types and Variables, Functions, Data Structures, Object-Oriented Programming, File and Exception Handling, Best Practices, and Code Quality.

WORK EXPERIENCE

[1 Aug 2020 – 1 Oct 2020]

CCNA-based Network internship

PART SOFTWARE GROUP

City: Mashhad | **Country:** Iran

During my internship focused on CCNA-based networking, I learned network fundamentals, routing and switching, LAN/WAN technologies, security protocols, and gained hands-on experience in troubleshooting and network management.

DIGITAL SKILLS

My Digital Skills

C / C++, Python, Java, HTML, SQL | Numpy, pandas, matplotlib, Tensorflow | Web scrapping (Selenium) | GIT version control, Linux Command | Team Leader & Team Work

CERTIFICATIONS

[17 Mar 2024 – Current]

Convolutional Neural Networks at Coursera

Learning CNNs through focused coursework, learning techniques for image recognition, classification, and feature extraction.

[22 Feb 2024 – 16 Mar 2024]

Improving Deep Neural Networks at Coursera

Proficiency in optimizing Deep Neural Networks through specialized coursework, mastering techniques for improving model performance and efficiency.

Link: <https://coursera.org/share/410538feb216ca532e72c7587ba0c3c5>

[14 Jan 2024 – 21 Feb 2024]

Neural Networks and Deep Learning at Coursera

Acquired skills in Deep Learning methodologies through coursework, encompassing theory, practical implementation, and model optimization.

Link: <https://coursera.org/share/ae9bdf5e0e099eece9dd22fde247592>

[5 Dec 2023 – 12 Jan 2024]

Machine Learning with Python course

Completed Machine Learning with Python course, gaining proficiency in ML algorithms and Python programming.

Link: <https://maktabkhooneh.org/certificates/MK-H2C631/?print=true>

[1 Nov 2023 – 4 Dec 2023]

Advanced python programming

Excelled in Advanced Python Programming, showcasing expertise in complex concepts and problem-solving strategies.

[20 Sep 2023 – 1 Nov 2023]

Linux Lpic1

Achieved proficiency in Linux LPIC-1 certification, demonstrating expertise in Linux system administration and essential command-line skills.

[5 Feb 2023 – 11 Sep 2023]

IELTS Academic

Prepared for IELTS Academic exam. (Result: Overall band 7)
